March, 2007

CFC Website is Launched

Calistoga Family Center announces the launching of their new Internet web site at www.calistogafamilycenter.org

The comprehensive site includes Center events and programs, the regular weekly calendar and monthly events calendar, information on partner organizations, current news, past newsletters archive, and, of course, links to donate and volunteer.

Family Center Celebrates New Community Health Clinic

The new Community Health Clinic on Washington Street is opening at long last. Family Center partner Clinic Ole has moved in and is opening doors for business on March 8 in their spacious new digs.

Clinic Ole has been a partner with Calistoga Family Center since the Center's inception in 1999, and they have shared facilities at the Family Center's location during this time. The clinic outgrew the shared space, and efforts began to find a more comfortable location for the clinic.

The new facility, located at 913 Washington Street, has over 1600 square feet of space and boasts a roomy waiting area, three examination rooms, and two dental chairs, which will be operated by Sister Ann Community Dental Clinic.

The schedule for Clinic Ole will be Monday and Friday, 8:30 am - 5:30 pm, and Thursday, 10:00 am - 9:00 pm, while the dental clinic will operate Tuesday and Wednesday.
